Higher Education

FOUNDATION DEGREES

Foundation degrees are level 5 employment-related qualifications. They are designed to meet employers' requirements for skilled individuals who are able to apply specialist knowledge in the workplace upon graduation.

Our foundation degrees take two years to complete. They can be studied on either a full or part-time basis. There is also an option to continue your studies once you have achieved your foundation degree and progress onto the 2nd or 3rd year of an honours degree.

Please note all full-time degree programmes must be applied for via UCAS.

EXTENDED DEGREES

We offer a BSC Extended Degree in Science (Year 0). This programme forms part of a four year degree programme that is validated by the University of Hertfordshire.

Upon completion, you will be able to continue on to the first year of a degree programme at the University of Hertfordshire, choosing from a range of related specialist subjects.

HIGHER NATIONAL DIPLOMA (HND)

HND's are a vocationally orientated alternative to honours degrees.

You usually complete HND's full-time over two years whilst employed with an organisation.

You can progress to the second year of an honours degree after a HND.

We offer HND's in computing & system development, health & social care, public services (uniformed), public services (non-uniformed, criminology), sport (leisure management).
